

## **ECBS2021 Attendee instructions (all)**

### Contents

1. ECBS2021 website and Whova conference portal .....	2
2. Whova portal information .....	2
3. Conference recording .....	3
4. Questions from attendees during the conference .....	3
5. Poster .....	4

## 1. ECBS2021 website and Whova conference portal

- we have a website for the ECBS ([www.ecbs2021.eu](http://www.ecbs2021.eu))
- and a separate virtual conference system called Whova ([https://whova.com/portal/webapp/euope\\_202011/](https://whova.com/portal/webapp/euope_202011/)) for the days of the conference.
- inside Whova, we will use the zoom webinar plug-in for video streaming of live talks.

## 2. Whova portal information

- While registering to the conference, you should have set-up a Whova account. If not, please sign up in Whova.
- This is the landing page which all attendees will see: [https://whova.com/portal/webapp/euope\\_202011/](https://whova.com/portal/webapp/euope_202011/)

European Chemical Biology Symposium  
26-28 MAY 2021 VIRTUAL

**Welcome to the ECBS2021!**

The virtual European Chemical Biology Symposium ECBS2021 is co-organised by the EuChemS Division "Chemistry in Life Sciences" (LS-EuChemS) and EU-OPENSREEN ERIC and brings together scientists from Europe and overseas to present and discuss their latest achievements in cutting edge chemical sciences, ranging from small molecule targeting nucleic acids, targeted protein degradation via PROTACs or molecular glues, artificial intelligence in drug design, new antiviral therapies, natural products, protein aggregation, glycochemistry & -biology and nanostructured material for biology and medicine.

A virtual satellite meeting for young investigators will be held from May 24-25th, 2021.

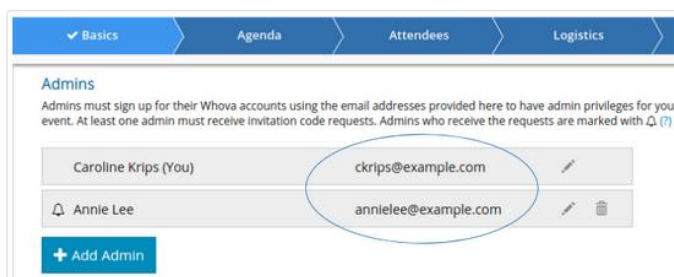

- On the left there are different menu points such as:
  - **Home:** general information on conference
  - **Agenda:** Program and all video streams (including links) are available in the Agenda part: attendees will be able to choose whether they would like to watch the conference directly in Whova or outside the Whova system in the Zoom app.
  - **Attendees:** see contact details of attendees, speaker profiles, chat and video call options
  - **Community:** discuss with other attendees, respond to questions, share your articles
  - **Posters:** Please visit the ECBS2021 posters section in Whova!
  - **Sponsors/ Exhibitors:** Visit our sponsor booths and get an update on newest technology developments!
  - **Messages:** your in-conference mail box for interaction with other attendees, speakers and organizers
  - **Photos:** Have a look at the ECBS2021 picture gallery!

- **To make yourself familiar with the system**, we kindly ask you to watch the following attendee guide, approx. 6 minutes:
  - Attendee guide:
    - video: <https://www.youtube.com/embed/flcltoKTsf4?autoplay=1>
    - text: <https://whova.com/pages/whova-app-user-guide/?source=ems>
- We highly recommend to install the Whova app (also on your phones if more convenient):
  - apple: <https://apps.apple.com/us/app/whova-event-cse25/id716979741?ls=1>
  - google play store: <https://play.google.com/store/apps/details?id=com.whova.event>

### 3 steps to preview your event in the app

#### 1 Add emails to the admin list

Only admins can preview event on app before the event is submitted. Make sure your and your colleagues' emails are listed as admin. You can check and add admin by going to the "Basics" tab and scrolling down to the "Admins" section.

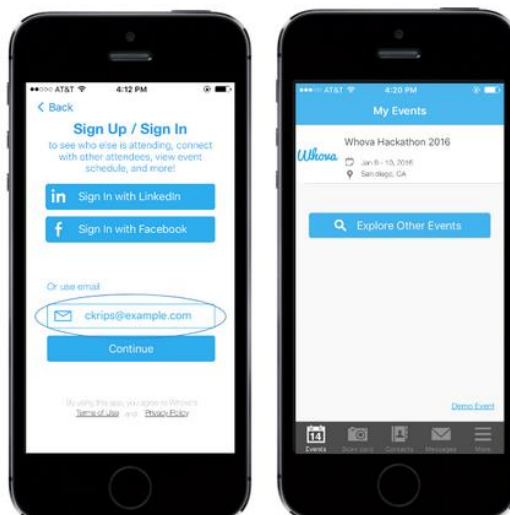

#### 2 Download the Whova App

Search "Whova" in the App Store on your iPhone or in Google Play on your Android phone.

#### 3 Sign in and preview your event

Open the app and register with the same email listed in the "Admins" section shown in step 1. Once you sign in, you should see your event in "My Events." Check it out!

★ Remember: You can still edit your app after you submit it.

### 3. Conference recording

- Please note that we will record the entire conference.

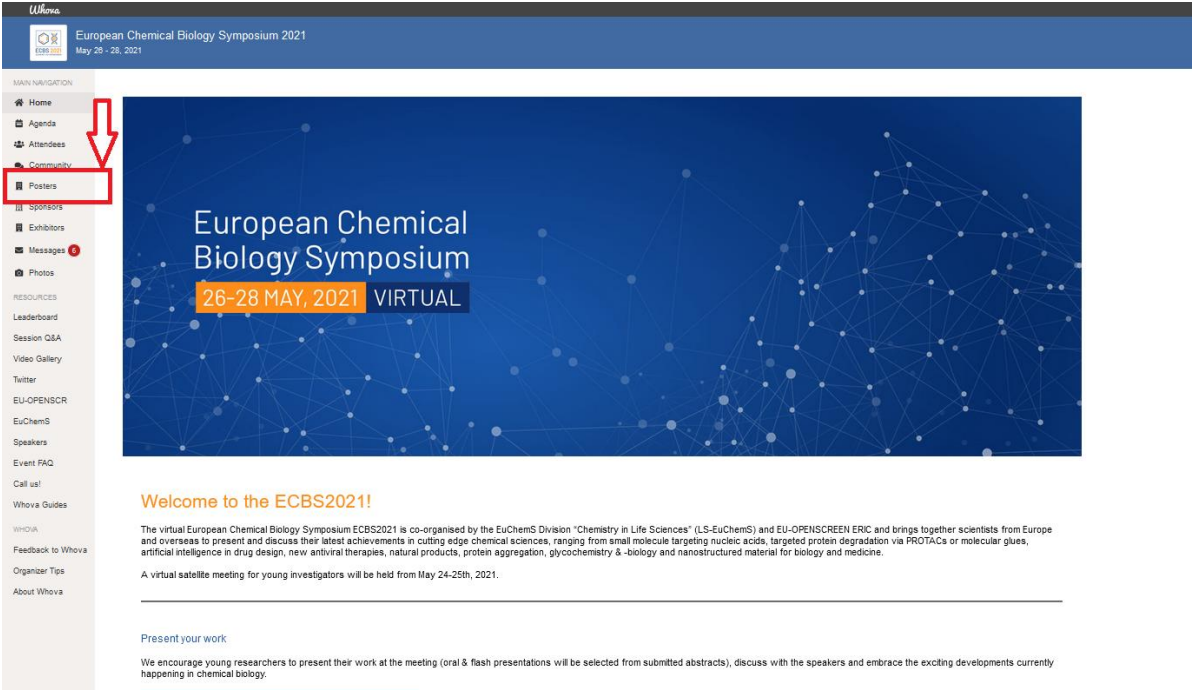

### 4. Questions from attendees during the conference

- All attendees will be asked to raise any questions in the questions and answers ("Q&A") window of zoom. For simplicity reasons, we decided against using the Whova Q&A function, as many attendees will be very familiar with using the zoom features directly in the live stream.
- Session chairs chose among the provided questions and read them out aloud for the speakers in case there is planned time for questions (for flash presentations, no time is foreseen for Q&A).

- Questions raised during the live session will be copied in the Whova platform, therefore questions can also be answered at a later timepoint, if there was no time left during the live session.

## 5. Poster

- Please visit the ECBS2021 posters section in Whova!

European Chemical Biology Symposium  
26-28 MAY, 2021 VIRTUAL

**Welcome to the ECBS2021!**

The virtual European Chemical Biology Symposium ECBS2021 is co-organised by the EuChemS Division "Chemistry in Life Sciences" (LS-EuChemS) and EU-OPENSREEN ERIC and brings together scientists from Europe and overseas to present and discuss their latest achievements in cutting edge chemical sciences, ranging from small molecule targeting nucleic acids, targeted protein degradation via PROTACs or molecular glues, artificial intelligence in drug design, new antiviral therapies, natural products, protein aggregation, glycochemistry & -biology and nanostructured material for biology and medicine.

A virtual satellite meeting for young investigators will be held from May 24-26th, 2021.

**Present your work**

We encourage young researchers to present their work at the meeting (oral & flash presentations will be selected from submitted abstracts), discuss with the speakers and embrace the exciting developments currently happening in chemical biology.

Thank you very much for all your work and time – we highly appreciate it. If you have any question, please email us at [ecbs2021@eu-openscreen.eu](mailto:ecbs2021@eu-openscreen.eu) or call us at: +49 30 94892422 or +49 30 94892424.
